

My name is Kristina Kuyper. This will be my seventh year here at CSCA. I was born and raised in Milford, Iowa, a rural town just to the south of Lake Okoboji. I went to school at the University of Northern Iowa where I graduated with two Bachelors of Arts, one in Chemistry and the other in Biology. After graduation I worked in our local school district as an aide with special education children. I have also lived in Sarasota, Florida where I worked on an educational boat tour and interned at Mote Aquarium doing dolphin research. I moved to Colorado Springs and began my teaching as an aide here at CSCA in the fifth grade. The following year I began teaching fourth grade. I taught fourth grade for four years, and this year will be my second year teaching sixth graders! I enjoy sports and play golf quite frequently when I can. I love the outdoors and spend time camping and fishing with my husband Drew and our dog Baxter where ever it fits in to my schedule. I have been coaching basketball here at CSCA for the past three years, and volleyball last year.
